**If your group is larger than 50 participants, please double these items.*

- ➔ The only tools available are those that YOU bring! There is a chance that you may not use all the tools you bring, but it is better to have a tool you don't need than to need a tool you don't have!
- ➔ Tools are often shared with others so be sure to label all tools with your name and church.
- ➔ Flying to camp? You are still going to need tools! Plan to either ship ahead or purchase when you arrive. You can donate tools to your resident or ship them back.
